## About FiscalNote

### Firm Description

FiscalNote is a technology-powered global software data and media company that uses powerful machine learning to provide clients with the right policy information and insights, and at the right time so that they can better navigate market risk and uncertainty and maximize new opportunities.

As the premier hub of domestic and global information for more than 5,000 clients worldwide, FiscalNote's tools, analysis, news, and awardwinning journalism delivers context, clarity, and a competitive edge in a rapidly changing world.

From legislative and regulatory monitoring to stakeholder management, grassroots and digital advocacy, FiscalNote's issues management solutions help organisations of all shapes and sizes effectively manage the impact of the outside world.

### **Our Products** EU Issue Tracker

FiscalNote's EU Issue Tracker platform

stands apart from other EU tools with a complete database of all EU dossiers; from the earliest sign of potential regulatory action through to hotly debated and adopted dossiers. Our analysts summarize each dossier explaining the latest developments, how proposals amend existing regulations, and analysis on committees, amendment trading, and future timelines.

What good is a radar with blind spots? Our coverage is complete. We cover all of the EU's regulatory agencies at a granular level

so you can follow individual measures and clearly see how existing regulations will change.

### Systematic Regulatory Intelligence

- You don't have time to continuously check for potential regulatory risks or monitor dossiers as they move through the EU institutions. FiscalNote's comprehensive regulatory intelligence platform combines cutting-edge technology with human analysis from our team on the ground in Brussels so you can spend your time on the work that matters most.

Distant Early Warning of Future Regulation - We are unique in systematically informing you of what the EU institutions and regulators are working on, planning, and even merely considering in terms of future policy initiatives. All the information is available in an online platform custom-tailored for each user

Precise Summaries via Email or Our Platform - Succinct summaries written with clarity and authority. You need to know what's going on. But you don't have time to read endless amounts of text from multiple sources. We update you with a summary email when your dossier moves, along with all the key documents.

### **FiscalNote Platform**

FiscalNote solutions bring together what every organisation needs to survive in today's environment - an unmatched combination of global data, insightful analysis, and powerful workflow tools.

Issues Management - FiscalNote's Issue Management solution enables colleagues to work in issue teams on policies or issues that matter to them. Our policy monitoring of 20+ countries and project management tools empower teams to collaborate on risks and opportunities. Working on issues in the FiscalNote platform automates monitoring, reduces the volume of unnecessary emails, prevents duplication of effort, and improves coordination of policy messaging.

## Stakeholder Management -

FiscalNote provides seamless and intuitive tools to identify, manage, and map stakeholders to key opportunities and risks. Users can access pre populated profiles of legislators across the world or add their own contacts through bulk upload or using the FiscalNote business card scanner on a mobile phone. Voice dictation technology enables busy professionals to disseminate intelligence while on the move using the FiscalNote app.

## System of Record and Reporting -

FiscalNote helps organisations avoid institutional knowledge loss when there is staff turnover. We designed the platform to encourage teams to collaborate and share information in a way that enables automated reporting on issues, stakeholder relationships, and team impact. With a few clicks users can generate attractive reports that illustrate a team's return on investment.

## Why FiscalNote Europe?

To find out more about how we can free your time for more strategic work, improve team alignment and knowledge retention please get in touch for a demo via www.fiscalnote.com

# **Monitor and understand European** legislation with EU Issue Tracker

You don't have time to continuously check for potential regulatory risks or monitor dossiers as they move through the EU institutions. Our EU Issue Tracker, a comprehensive regulatory intelligence platform, combines cutting-edge technology with human analysis from our team in Brussels so you can spend your time on the work that matters most. Our systematic and complete approach also means you will not have an exploding inbox and still be left wondering where your files have got to.

> FiscalNote offers a modern technology solution for managing global policy and corporate issues, streamlining data management, engaging stakeholders, collaborating across the enterprise, and centralizing knowledge management and reporting. Find out how digitizing issues management can save you time and improve impact.
