## About Norton Rose Fulbright

### Firm Description

Norton Rose Fulbright's Government Relations and Public Policy practice comprises lawyers and government affairs professionals working across our global network. We work with in-house lawyers and government relations teams to help them to navigate the complex and sensitive interaction between law and politics, policy and regulation. We serve clients in the banking, commodities, digital asset, financial services and technology sectors as well as public authorities and self-regulatory organisations. Offering clients an unmatched mix of policy, process and sectoral expertise, we work with our clients through the entire legislative process from initial objectives to new law, from implementing measures to application. We support our clients across jurisdictions, helping them coordinate and promote appropriate and consistent legislation wherever they do business.

### Ownership Structure

Limited liability partnership.

### International Structure

Norton Rose Fulbright is a global legal practice comprised of more than 4,000 lawyers based in over 50 cities across Europe, the United States, Canada, Latin America, Asia, Australia, Africa and the Middle East.

### Key Strengths

Drawing on the experience of lawyers, lobbyists and consultants who have held senior positions with government agencies and departments worldwide, we offer our clients a significant understanding of the underlying policies which shape the regulators' approach and of the sensitivities of dealing with global, regional and national policy makers and regulators. This allows us to provide comprehensive assistance to our clients as they navigate the evolving and increasingly complex global regulatory and compliance environment. Examples of how we support our client's business include:

- Providing bespoke insight and intelligence support
- Supporting advocacy and strategic engagement
- Helping with responses to consultations, formulating positions on proposed legislation and regulation
- Training senior managers before committee appearance or other regulatory hearings
- Advising on political and regulatory matters in the course of transaction support
- Supporting clients through regulatory investigations and inquiries

### Thought Leadership

Members of our Government Relations and Public Policy practice regularly work with legal teams across the network in producing cutting-edge research and analysis on public policy issues ranging from the regulation of cannabis products to insolvency practices for crypto-assets, from the evolution of lobbying regulation to national security reviews of foreign acquisitions and investments across jurisdictions. Some of our most widely cited and popular publications and resources include:

- Our Brexit Pathfinder and PathfinderPLUS hubs
- Our Blogs on a range of topics, including Regulation Tomorrow
- Our thought leadership Global Publications from across the network and practice areas.
