Thought Leadership

This combination of law and lobbying has put us in a class of our own. We can handle challenging policy issues through a combination of strong substantive knowledge and proceedings awareness where standard PR firms lack sufficient legal know-how. We provide lobbying services where average law firms do not have that multi-pronged approach. For this reason in "Lobbykratie", a book written by Markus Balsler and Uwe Ritzer, Alber & Geiger is among the most influential lobbying firms in the EU and Germany.
