About Covington

Firm Description

Building a successful global business involves navigating the intersection of law and public policy for every country and every region in which you operate. Covington helps clients worldwide achieve critical business objectives by combining legal, political, and policy expertise to provide strategic advice and advocacy.

In an increasingly regulated world, Covington has an exceptional ability to help clients navigate their most complex business problems, deals and disputes. Our focus lies in highly-regulated sectors – technology, life sciences, energy, environment, financial services, competition and trade policy.

Our distinctively collaborative culture allows us to be truly one team globally, drawing on the diverse experience of lawyers and advisors across the firm, sharing insight and expertise seamlessly. What sets us apart is our ability to combine deep knowledge of policy and policymakers, with one of the world's leading regulatory practices, and the tremendous strength in our litigation, investigations, and corporate practices. This enables us to create novel solutions to our clients' toughest problems, successfully try their toughest cases and deliver commercially practical advice of the highest quality.

Led by Global Public Policy Chair Sebastian Vos, Covington's European Public Policy team draws on a range of former policymakers, including politicians, lawyers, public affairs practitioners, diplomats and economists, as well as policy advisors with deep substantive know-how in a range of sectors. The team offers clients unparalleled insight into the workings of EU political processes and institutions.
