About Norton Rose Fulbright

Firm Description

Norton Rose Fulbright's Government Relations and Public Policy practice comprises lawyers and government affairs professionals working across our global network. We work with in-house lawyers and government relations teams to help them to navigate the complex and sensitive interaction between law and politics, policy and regulation. We serve clients in the banking, commodities, digital asset, financial services and technology sectors as well as public authorities and self-regulatory organisations.

Offering clients an unmatched mix of policy, process and sectoral expertise, we work with our clients through the entire legislative process from initial objectives to new law, from implementing measures to application. We support our clients across jurisdictions, helping them coordinate and promote appropriate and consistent legislation wherever they do business. Having both deep expertise in the law and regulation and an insider's understanding of politics and policymaking enables us to synthesise solutions that work commercially, legally and politically. That is a rare combination which we believe adds real value to our clients.

Ownership Structure

Limited liability partnership.

International Structure

Drawing on the experience of lawyers, lobbyists and consultants who have held senior positions with government agencies and departments worldwide, we offer our clients a significant understanding of the underlying policies which shape the regulators' approach and of the sensitivities of dealing with global, regional and national policy makers and regulators. This allows us to provide comprehensive assistance to our clients as they navigate the evolving and increasingly complex global regulatory and compliance environment.
