International Structure

EUTOP's business model is focused on governmental relations within the European Union and its member states.

Key Strengths

EUTOP is a specialised service provider which works for its clients on a structural, i.e. long-term and not project-by-project basis according to the principle of "only one interest". As such EUTOP bundles various competences EUwide. EUTOP provides the process structure, perspective change and process support competences which are now, additionally to the client's own content competence, essential for successful lobbying in the EU. Compliance, integrity and a scientifically founded business model are key pillars of EUTOP's success.

Since our foundation in 1990, EUTOP has nurtured diverse contacts with legislative and executive decisionmakers at the EU level as well as in all EU member states. In this way, EUTOP effectively and efficiently supports clients in presenting their cases within the decision-making processes in Brussels and selected member states of the EU. Former legislative and executive heads, as well as well-known public figures from many EU member states, act on behalf of EUTOP. As structural advisors, they place their experience and expertise at EUTOP's disposal. Moreover, EUTOP co-operates structurally with selected governmental relations agencies within the EU.

The linking up of networks within EUTOP's quality standards create innovation and success for clients. EUTOP focuses on the process while clients are the content carrier.

The EUTOP-Methodology can be applied in all policy fields and is not limited to certain sectors.
