About Ohana Public Affairs

Firm Description

Ohana is a boutique public affairs consultancy specialised in sustainability and dedicated to making the European Union's policies and processes easy to understand and readily actionable within organisations.

Ohana goes beyond traditional public affairs consultancy. We're your strategic partner in navigating EU policies while advancing sustainability. Our collaborative, tailor-made approach ensures open and continuous dialogue, helping organisations turn policy challenges into opportunities.

The name "Ohana" was chosen to reflect the company's philosophy and values, the idea of belonging to a 'community' and guiding our actions by their impacts on the collective.

More importantly, Ohana is about driving positive change through public affairs and a fundamental belief that it is possible to work with businesses and help them grow while still advancing sustainability.

Ohana is a proud member of the 1% for the Planet movement.

Key Strengths

We believe that close collaboration is the key to solving the many environmental challenges posed to all of us as we transition into a more sustainable society. This means that our consultants will not only help you understand what these challenges mean for your organisation, but also fully support and engage with your team to implement the solutions that can lead to strategic advantages in the long term.

Our values are simple but they guide us in everything we do:

1. Walk the talk: our clients are sustainability believers and so are we!

2. Constructive voice: our clients commit to public affairs and policy making as a force for creating a society that is fair, protects the planet and people.

3. Respect: we're a diverse team with different backgrounds, opinions and beliefs. We respect this with no judgement.

4. Collaboration: we establish a two-way dialogue with everyone we collaborate with.

The Ohana Approach, as we call it, is based on three key pillars that shape our methods and engagement from start to finish.

1. CHANGE ROOTED IN REALITY: We work directly with companies and EU decision-makers, ensuring industry concerns and societal challenges are heard within the European policy sphere. Our goal is to shift the boundaries and make a real, positive impact on policy.

2. CHANGE THROUGH AWARENESS-RAISING: A better world starts with awareness. We empower citizens and businesses to challenge the status quo, take responsibility, and drive environmental and climate action forward.

3. CHANGE THROUGH COLLABORATION: Sustainable change happens together. By bringing industries, NGOs, governments, and citizens into the conversation – even the sceptical ones – we foster inclusive, lasting solutions for a better future.
